National Agricultural Statistics Service

Title: Custom Work Survey.

OMB Control Number: 0535–NEW.

Summary of Collection: The primary objective of the National Agricultural Statistics Service (NASS) is to prepare and issue State and national estimates of crop and livestock production, value and disposition. This project will concentrate on agricultural operations that have knowledge of rates for custom agricultural work. Custom agricultural work or simply “custom work” is any work completed by others which includes the costs for labor, equipment and fuel for a pre-determined price which will be referred to as a “custom rate.”

Need and Use of the Information:

Data collected under this docket are for cooperative agreements between the National Agricultural Statistics Service (NASS) and other cooperators including North Dakota State University and Oklahoma State University. The purpose of the survey is to collect custom rates for custom agricultural work.

Description of Respondents: Business or other for-profit.

Number of Respondents: 41,500.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 15,024.

Title: Turfgrass Economic Survey.

OMB Control Number: 0535–NEW.

Summary of Collection: The primary objective of the National Agricultural Statistics Service (NASS) is to prepare and issue State and national estimates of crop and livestock production, value and disposition. This project will collect data from a sample of homeowners, golf courses, cemeteries, sod producers, turfgrass service providers, and commercial businesses with turfgrass in the State of New Jersey. The reference period will be the previous calendar year. The survey will be conducted

annually if funding allows. This data collection is voluntary.

Need and Use of the Information: The purpose of this survey is to collect economic information from a sample of homeowners, golf courses, cemeteries, sod producers, turfgrass service providers, and commercial businesses with turfgrass in New Jersey. Data collected will reference the previous calendar year. The summarized data will be used by the New Jersey State Department of Agriculture and Land Grant University to: (1) Evaluate the magnitude of the New Jersey turfgrass industry in terms of number of acres maintained, number of workers, turf related expenses, and its total contribution to the New Jersey economy, and (2) to characterize the nature of New Jersey's turfgrass industry (*i.e.*, species of turfgrass used, product sales, market distribution channels, and maintenance practices).

Description of Respondents: Business or other for-profit.

Number of Respondents: 1,400.

Frequency of Responses: Reporting: Annually.

Total Burden Hours: 1,013.

SUPPLEMENTARY INFORMATION:

Title: Importation of Sand Pears From China.

OMB Control Number: 0579–0390.

Type of Request: Revision to and extension of approval of an information collection.

Abstract: The Plant Protection Act (PPA, 7 U.S.C. 7701 *et seq.*) authorizes the Secretary of Agriculture to restrict the importation, entry, or interstate movement of plants, plant products, and other articles to prevent the introduction of plant pests into the United States or their dissemination within the United States. Regulations authorized by the PPA concerning the importation of fruits and vegetables into the United States from certain parts of the world are contained in in “Subpart L-Fruits and Vegetables” (7 CFR 319.56–1 through 319.56–12, referred to below as the regulations).

In accordance with the regulations, sand pears from China may be imported into the United States under certain conditions to prevent the introduction of plant pests into the United States. The regulations require the use of information collection activities, including testing and certification of propagative material, operational workplan, production site and

packinghouse registration, inspection of registered production sites, investigation for recertification of production sites, packinghouse tracking system, packinghouse inspection, handling procedures, labeling of cartons, trapping system, recordkeeping of trap location, packinghouse notification of pest detection, mitigation measures upon *Bactrocera dorsalis* detection at production sites and packinghouses, cold treatment facility audits and monitoring, notice of arrival, emergency action notification, and phytosanitary certificates.

We are asking the Office of Management and Budget (OMB) to approve our use of these information collection activities, as described, for an additional 3 years.

The purpose of this notice is to solicit comments from the public (as well as affected agencies) concerning our information collection. These comments will help us:

(1) Evaluate whether the collection of information is necessary for the proper performance of the functions of the Agency, including whether the information will have practical utility;

(2) Evaluate the accuracy of our estimate of the burden of the collection of information, including the validity of the methodology and assumptions used;

(3) Enhance the quality, utility, and clarity of the information to be collected; and

(4) Minimize the burden of the collection of information on those who are to respond, through use, as appropriate, of automated, electronic, mechanical, and other collection technologies; e.g., permitting electronic submission of responses.

Estimate of burden: The public burden for this collection of information is estimated to average 0.007 hours per response.

Respondents: Producers and importers of sand pears from China and national plant protection organization officials of China.

Estimated annual number of respondents: 30.

Estimated annual number of responses per respondent: 2,019.

Estimated annual number of responses: 60,556.

Estimated total annual burden on respondents: 431 hours. (Due to averaging, the total annual burden hours may not equal the product of the annual number of responses multiplied by the reporting burden per response.)

All responses to this notice will be summarized and included in the request for OMB approval. All comments will also become a matter of public record.

Done in Washington, DC, this 12th day of March 2019.

Kevin Shea,

Administrator, Animal and Plant Health Inspection Service.
